

4" 12V Low Voltage Adjustable Gimbal

High Quality, Design and Energy Efficient

4" Low Voltage Adjustable Gimbal features an integral tunable CCT switch to change the color temperature appearance as well as adjustability via gimbal. It pivots 360° on a hinge and 90° tilt. It's an economical solution to convert existing, new construction or remodel low voltage recessed housings into LED luminaire.

360° Rotation

90° Tilt

FEATURES

- 12V Low Voltage GU5.3 base
- 750lm / 10W
- Selectable CCT: 2700K, 3000K, 3500K, 4000K, 5000K @ 90+CRI
- 360° Rotation and 90° Tilt
- Available in Black or White finishes
- Compatible with 4" IC & Non-IC Recessed Low Voltage Housings
- Dimmable
- cETLus listed
