

LS-8BLD-22WT-5CCT

8" Wattage Tuning & Selectable 5CCT Back-Lit Recessed LED Canless Downlight

LUMENS: 1950/2340/2860lm

COLOR TEMPERATURE: 27K/30K/35K/40K/50K

APERTURE: Round

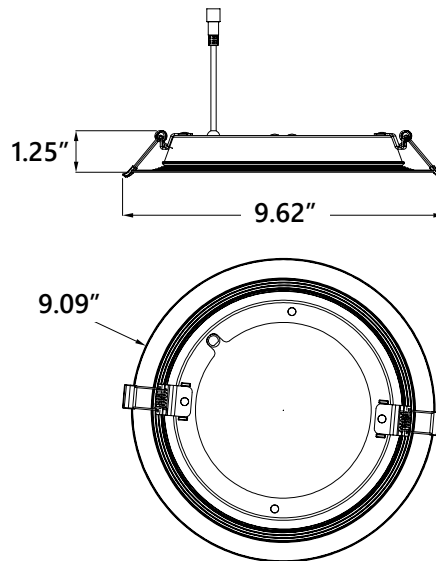

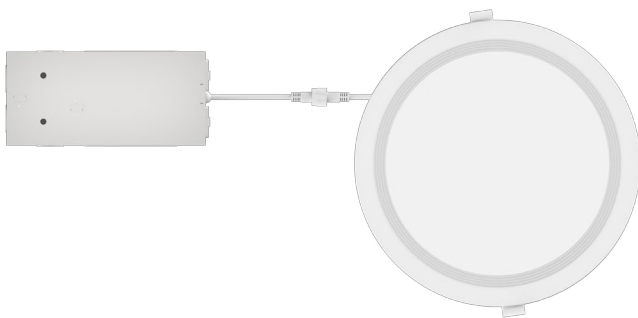

Description Back-lit LED recessed canless downlight delivers a fast, low-profile lighting solution by eliminating the traditional frame and reflector—making installation quick and simple without a recessed housing. Its ultra-thin design is perfect for low plenum and existing shallow-ceiling spaces, and it works equally well for new construction or remodel projects. With selectable color temperatures and adjustable lumen outputs, this versatile downlight lets you tailor both ambiance and brightness to suit virtually any residential or commercial application while reducing installation time and material needs.
