

# LS-TPL5.8W-24V-5M-4K-R

## 24V 5.8W RGB+W Tape Light for Outdoor

LUMENS: 95lm/W

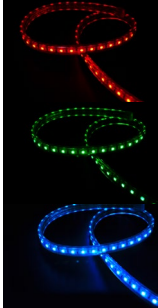

COLOR TEMPERATURE: RGB & 4000K

TYPE: RGB+W Tape

**Description** RGBW tape light is a versatile lighting solution that features SMD (Surface-Mount Device) as its light source, providing an impressive efficiency of 95 lumens per watt. Operating at 24VDC, this tape light delivers vibrant colors and warm white illumination, making it ideal for various applications, from accent lighting to full-scale installations. Its compatibility with most RGBW controllers allows for seamless integration into existing lighting systems, enabling users to customize their lighting experience effortlessly. This combination of efficiency, versatility, and ease of use makes RGBW tape light an excellent choice for both residential and commercial projects.

### FEATURES

- 122 lumens per foot
- RGB & 4000K
- 80+CRI
- Suitable for outdoor
- CE, Rohs, UL listed
- 5 years warranty
- cULus Listed for Wet Locations
