

LS-6-RGB

6" Smart Wi-Fi RGB with 2700K-6500K LED Retrofit Downlight

LUMENS: 1000lm

COLOR TEMPERATURE: RGBW

APERTURE: Round

Description This 6" LED downlight is ready to fit most 6" recessed can housings, this dimmable smart Wi-Fi RGBW can produce up to 1000 Lumens using only 14-Watt - up to 84% less energy than an equivalent incandescent. The smart Wif-Fi RGBW is programmable from 2700K to 6500K when on the white color setting and offers thousands of RGBW color possibilities. Control lighting with simple voice commands or an intuitive mobile app. These smart downlights connect directly to your Wi-Fi at home without any hubs or additional hardware, allowing control over color, dimming, schedules and more using an intuitive mobile app or your Alexa or Google device. 80+ CRI LED light makes colors vibrant and skin tones look more natural, all while saving energy and lasting for decades.
